

Use Water Wisely

Tips from the Water Buddies Squad

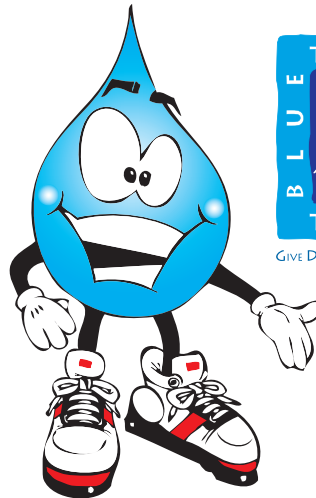

Be a wise user of water and be kind to our natural resources. Every drip and drop count.

Depend on us - today *and* tomorrow.

Be a Blue Thumb for Water and the Environment!

- Use water wisely.
- Put your soda cans and candy wrappers in the trash can.
- Give your pets fresh water.
- Clean up after your picnic at the lake or park.
- Be kind to animals.
- Clean up after your pets.
- Plant flowers and trees.
- Don't litter.
- Remember that Lake Maumelle and Lake Winona are our drinking water supplies.
- Think about just how important water is to humans, animals, and plants.

GIVE DRINKING WATER A HAND.

You Can Help to Protect Our Water Resources:

- 💧 Don't keep the water running while you brush your teeth.
- 💧 Don't run the tap for a cold drink of water. Use ice cubes to cool water or keep a pitcher of water in the refrigerator.
- 💧 Take shorter showers or use less bath water.

💧 Never put water down the drain when there may be another use for it, such as watering a thirsty plant or garden or cleaning.

💧 Avoid flushing the toilet unnecessarily. Dispose of tissues, insects, and other such waste in the trash rather than the toilet.

💧 Clean the sidewalks and driveways with a broom instead of a water hose.

💧 Use a bowl of water to clean your fruits and vegetables rather than running water. You can re-use the water for your house plants.

💧 When washing a car, use soap and water from a bucket. Use a hose with a shut-off nozzle for rinsing.

💧 Don't let the faucet run while washing dishes by hand. Rinse the dishes in a plugged sink or a pan of clean water.

💧 Re-use your cup; don't get a new cup each time you want a cool drink.

💧 Encourage your school, family, and community to promote ways to save water.

💧 Set up a container to collect rainwater that you can use to water plants.
