

Citizens have a part in PROTECTING Life & Property

LITTLE ROCK FIRE DEPARTMENT

The **International Fire Code** requires that citizens and property owners do their part to make sure that firefighters can easily see fire hydrants and encounter no hindrance in gaining immediate access to fire hydrants and other fire protection equipment.

- When firefighters arrive on the scene of a fire, they have only minutes, sometimes seconds, to protect life and property. It is very important that they have full and unobstructed access to fire hydrants and connections.
- Landscaping as simple as shrubbery and objects as common as a garbage cart can block immediate access to fire hydrants and fire department connections.
- Keep posts, fences, vehicles, shrubbery and vegetative growth, trash, storage, and other materials or objects at least three (3) feet away from fire hydrants, fire department connections, and fire protection system control valves.

Fire Hydrant Safe Zone

Maintain three (3) feet of clearance from a fire hydrant.

HOME FIRE SAFETY

A Checklist for *EVERY* Family

LITTLE ROCK FIRE DEPARTMENT

- ✓ Fire drills at home are vital.
- ✓ Smoke alarms and carbon monoxide alarms save lives.
- ✓ Two (2) escape routes out of bedrooms and the house are a must for every family.
- ✓ Sleep with the bedroom door closed to keep out deadly smoke.
- ✓ Keep matches and lighters out of the reach of children.
- ✓ If your clothes catch on fire, STOP, DROP, and ROLL.
- ✓ Space heaters need SPACE — at least three (3) feet from combustible materials and substances.
- ✓ Do not leave food unattended on the stove while cooking.
- ✓ Practice fire safety everyday!!!

Help Us to Protect You.
